Re: KRDG(AM)

FCC File No. BAL-910802EF

Dear Ms. Searcy:

On behalf of Educational Media Foundation ("EMF"), request is hereby made to extend the date by which it is required to consummate the voluntary assignment of the license of the above-referenced station from Prather-Breck Broadcasting, Inc. of Redding to EMF until May 20, 1992. The Commission granted its consent to such assignment on September 12, 1991. On February 20, 1992 and on March 20, 1992, we filed requests to extend the consummation date, which requests were granted by the Commission. The Seller is still attempting to cause the liens on the station assets to be removed from record. Pursuant to the purchase agreement between EMF and the Seller, the Seller is required to convey the assets to EMF on the closing date free and clear of all liens.

EMF certifies that no reportable changes have occurred in the representations and warranties or the factual statements contained in the parties' application for Commission consent.

*Extension to consummate granted thru 5/20/92.

NOTICE TO ASSIGNEE

Enclosed is FCC Form 732 notifying you of Commission consent to the assignment of the construction permit and/or license of the station(s) therein described. Voluntary assignments are required to be completed within sixty (60) days of the date granted.

In addition to the filing of the below mentioned FCC Form 323, you are required to immediately notify this office (8910), by letter, as to the exact date of the consummation; that is, the date on which the acts necessary to effect the assignment were completed.

Within thirty (30) days after the consummation of the assignment it will be necessary for you to submit an Ownership Report (FCC Form 323) reporting all changes as required by Section 73.3615 of the Rules. Where applicable, a separate Ownership Report should also be completed and submitted for any holding company (25% or greater ownership interest) of the licensee/permittee. Contractual information required by Section 73.3613 should be reported for the assignee in Item 6, page one of the Ownership Report and copies of each instrument should be submitted with the report. If this is an involuntary assignment that was the result of a death or court action, an Ownership Report must be filed to determine that all requirements of the Rules have been met and reported.

In the event the assignee is the licensee/permittee of another station and has a current Ownership Report on file, you may complete and file only page one of FCC Form 323 to reflect the acquisition of the station(s) listed above. FCC Form 323 is enclosed for your convenience in filing.

It is of the utmost importance that all Commission correspondence comes to the immediate attention of the permittee or licensee. Only one mailing address can be maintained for each station. Unless we hear from you to the contrary, the above address will be used as your permanent mailing address.

If the assignor has any applications pending before the Commission, these applications must be amended to reflect the name of the assignee. Upon consummation of the assignment, amendments to each application must be filed by the assignee, in triplicate, signed by the proper party (see Section 73.3513 of the Rules). Further processing of these applications will be withheld pending receipt of the amendment.

AM BRANCH

Dear Ms. Searcy:

On behalf of Educational Media Foundation, request is hereby made to extend the date by which it is required to consummate the voluntary assignment of the license of the above-referenced station from Prather-Breck Broadcasting, Inc. of Redding until December 16, 1991. The Commission granted its consent to such assignment on September 12, 1991. It has taken the parties longer than expected to fulfill certain conditions to closing, such as the removal of liens on the station assets and the grant of certain waivers.

Very truly yours,

Robert C. Fisher

Re: Application for Assignment of License
KRDG(AM), Redding, California
FCC File No. BAL-910710EG

Dear Ms. Searcy:

Filed herewith, on behalf of the parties to the above-referenced application, is an amendment to that application certifying that the parties will comply with Section 73.1150 of the Commission's Rules. Thus, it is clear that the seller will have no reversionary interest in the station license.

Also, please note that there were two typographical errors in Exhibit 2 to the initial filing. First, the proposed assignee, Educational Media Foundation, Inc., is the permittee of a new AM station at Tigard, Oregon. The call letters for that station are KEZF, not KZEF as originally stated in the application. Also, the file number for the pending application for a new educational FM station at Magalia, California is BPED-900315MS.
